2. Our Email "Updated Work Program (Lot-1)" Dated: 30<sup>th</sup> August 2023

Regarding the previously mentioned correspondences, wherein the Engineer has repeatedly informed you that your project schedule does not align with the actual site progress, as detailed in the aforementioned letters. Consequently, you were instructed to provide a recovery programmed in accordance with Sub-Clause 8.3 of GCC/PCC.

On **25/08/2023**, the JV contractor submitted a recovery working schedule to our office. Upon review, we identified certain deficiencies that were subsequently communicated to the JV contractor on **30/08/2023**. Until the corrected working schedule is submitted to our office by the contractor, we remain in a pending state.

As Per the Contract, you were obligated to promptly furnish the revised work program within twenty-eight (28) days of receiving the Engineer's notification. Timely compliance with this schedule is crucial for maintaining the project's timeline and ensuring its successful completion.

Therefore, we kindly request that the JV contractor submit the revised recovery working schedule by **04/09/2023**. Failure to do so may result in contractual actions being taken against the JV contractor.

Your immediate attention to this matter would be greatly appreciated.
