No. CEO/WSSCA/023/9175

Date: 08/10/2023

To,

The Executive Engineer, Bulk Division
Public Health Engineering Department,
Abbottabad

**Subject: KHYBER PUKHTUNKHAWA CITY IMPROVEMENT PROJECT (KPCIP) -
ABBOTTABAD**

This is in response of your Letter No. WSSCA-01/01 dated 20-09-2023.

The officially transferred area to WSSCA for setting up the new KPCIP WTP is 30 Kanals whereas after quantifying the all sides, till the present time, the available land area could not exceed from 27 Kanals. On the other hand, KPCIP WTP has 24 structures to fit within the available boundary besides the internal roads and configured space between one to other facility. 03 structures of the under construction plant are being figure out to rearrange within the available land due to shortage of space. Therefore in this arrangement, it is regretfully conveyed that WSSCA will not be in the position for sparing any area of land from the allotted borderline.

Correspondingly, it has been pledged in our Letter No. CEO WSSCA/023/9175 dated 08-09-2023 that the Access Road will be truly reinstated in best of its condition upon/simultaneously with completion of KPCIP WTP. Since constructing a new road in a small diversion will not make a significant change in overall disordering of the access road, it is therefore requested that let the contractor use the access in full length. Upon completion of the KPCIP WTP, WSSCA & CIU Abbottabad will ensure the absolute restoration of the access, which has been already consolidated as Record Note with the office of Project Consultant.
