Dear Sir,

1. In reference to the subject matter cited above and in continuation to our earlier letter referred to above at enumeration (i) and (ii), the JV-Contractor, as per the instructions, has cut the Trees to make arrangements for Site Clearance to initiate the Construction Activities at project Site.
 2. The same was communicated to your kind office for timely handing over trees to the concerned department. The trees are still at the site and have not been relocated yet, hindering our Structural Excavation works, Rapid Sand Filter and Chlorine Contact Tank and Treated Water Tank, and overall progress. Therefore, it is requested from your kind office that the Concerned department be informed about the immediate removal or re-location of the Tree Stems (Remains) from the project site, as they are costing financial loss to the contractor for their watch and security.
 3. It is further added that there is every likelihood of damaging trees due to falling rocks during excavations, for which the responsibility shall not be on the contractor's end.
- Your positive and early response in this regard is requested.

We assure you of our fullest cooperation, please.

With Regards,

Abdul Majeed
