Date: 08/03/2023

To,

The Project Manager
JHK Construction Company
M/s Reliable Engineering Services (Pvt.) Ltd. JV
Abbottabad

Subject: REQUEST FOR NO OBJECTION CERTIFICATE FOR CONSTRUCTION WASTE DISPOSAL SITE

Sub-Head: WSSCA'S RESPONSE

Reference: Your Letter No. Reliable-JHK/KPCIP-24/LOT-01 Dated 01-02-2023

This is with reference to the above quoted letter wherein your office has requested for the No Objection Certificate for Construction Waste Disposal Site

In this regard, your office is hereby informed that the "Salhad Dumping Site" is being partially administered by the WSSCA for the disposal of communal / municipal waste, only. Moreover, since the said dumping site is already being used at its full capacity, therefore WSSCA requires frequent leveling and dressing of the waste therein ultimately impacting on the operational expense of WSSCA on Solid Waste Management. Based on the aforementioned reason, WSSCA has decided to curtail the dumping of construction waste there.

However, considering the importance of the project and its relation with WSSCA mission and objectives, WSSCA is pleased to issue **NO OBJECTION CERTIFICATE** subject to the fulfilment of following conditions.

1. The Dumping Site is administered on day-work basis. Therefore, the JV Contractor has to ensure that the construction waste shall be brought to the site between **07:00 AM to 02:00 PM**, only.
2. The JV Contractor should take due care that only construction and demolition waste; and no hazardous waste; shall be brought to the site.
3. The JV Contractor has to submit the detail credentials of the vehicle / vehicles dedicated for this purposed. The detail must include the waste carrying capacity of the vehicle both in Tons as well as in Cubic Meters.
4. The JV Contractor has also to take due care regarding transportation of waste from project site to dumping site so that NO waste be dropped on roads from the container of the vehicle or from the tires of the vehicle.
5. For the handling of construction waste on dumping site, WSSCA would charge the JV Contractor @ Rs. 200 per cubic meter of construction waste brought to dumping site as "waste handling charges". The mentioned charges shall be deposited by the JV Contractor in WSSCA Account on actual basis at the end of each month.

At the end, WSSCA is looking forward for a harmonized relationship among all the partners of KPCIP and ensure its endless support in the smooth implementation of the project.
