No. CEO/WSSCA/023/ 8609

To,
The Engineer/Resident Engineer
Project Management and Construction Supervision Consultant,
Khyber Pakhtunkhwa Cities Improvement Project,
Abbottabad

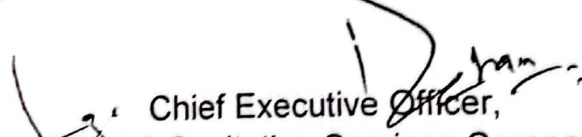

Subject: **KHYBER PUKHTUNKHAWA CITY IMPROVEMENT PROGRAM (KP-CIP PROJECT)**
EXTENSION OF JICA GRAVITY WATER SUPPLY SCHEME ABBOTTABAD
Land Acquisition for Water Supply Line – Acknowledgement requested for 2200
meters long water supply route from Jandar Baari to Phalkot Mosque

Reference to the subject mentioned above, while confirmation visit of the CIU assisted by the PMSC at 2200 meters long pipeline route (Starting from Jandar Bari Intake up to Phalkot Road, opposite the mosque), this office came to know that at least 2 locations of the said route can be considered "Critical" for passing the pipe line due to loose land sliding / stone falling that may damage the Main Supply Pipe or even laying of pipe may not technically feasible at these locations and greater diversions may be required at installation stage.

Since the land acquisition will be applicable within 11 feet width, it shall therefore be a hectic exercise to re-perform land acquisition if such (possible) diversions are needed during the execution stage to avoid the land sliding area.

It is therefore requested that PMSC may share written acknowledgement with this office about its satisfaction regarding the existing route marking or re-assess the route considering the aforementioned query.

Please note that land acquisition is under process and will be completed soon, therefore the above mentioned concerns must be addressed before the completion of land acquisition and commencement of works.

Chief Executive Officer,
Water & Sanitation Services Company,
Abbottabad
