3. The Structural Engineer/Architectural of these structures are attached as Annexure-A. In continuation, some pictorial evidence from the site is attached as Annexure-B for your reference. The water having been already been discharged and brought to the attention of all the Project Stakeholders in the presence of the Team Lead, Project Engineer, and Employer representatives during the recent site visit held on September 15, 2022, the site has details referred to above as Attachment (3).

4. It is pertinent to mention that, without reaching this concern of required foundations over the bank fill, the JV Contractor cannot undertake construction work on these permanent structures.

5. In continuation, the JV Contractor hereby proposes the Addition/Incorporation of Retaining Walls to protect the permanent structures at the WTP site. The Retaining Walls and protection work is essential for the stability of the Permanent Structures at the Site.

6. Therefore, considering the sensitivity of the above described matter, your good office is requested to kindly take early useful action to avoid both the consequent time losses and consequent financial loss to the JV contractor and, more notably, for the timely completion of the project.

Your positive and early response is requested in this regard.

We assure you of our fullest cooperation, please.
